

The RM EasiPodcast Lite Lab offers teachers, students and administrators the opportunity to develop and publish podcast with the popular RM Easi-Speak MP3 recorder/player and RM Podium. The RM EasiPodcast Lite Lab comes with a mobile Tuff Case filled with RM Easi-Speaks ready to take your production on the road. Students can conduct interviews with veterans of war. Teachers can record their lessons. Administrators can create professional development podcast, create campus and district podcast news. The RM EasiPodcast Lite Lab is the solution for utilizing podcasting in education. *For more information, please see RM Education 2009 catalog page 26.*

## RM Product Solutions

**TITLE I** provides supplemental funds to local education agencies (LEAs) for schools that have high concentrations of students from low-income families to help ensure that all students reach proficiency on State assessments in reading and mathematics.

**RM EasiPodcast Lite Lab** will help teachers and students:

- » Reach proficiency on state assessments in language arts, history, science and mathematics and improve standards and assessments through the use of interactive technology.
- » Provide best practices and improve teaching by providing interactive technologies for digital students.

**IDEA:** The purpose of the Special Education Grants to States program, as authorized under Part B of the Individuals with Disabilities Education Act (IDEA), is to help to ensure that children with disabilities have access to appropriate public education.

**RM EasiPodcast Lite Lab** will help teachers and students:

- » Obtain state-of-the art assistive technology devices to enhance access to the general curriculum for students with disabilities.
- » Provide proven and innovative strategies in reading, math, writing and science, and positive behavioral supports to improve outcomes for students with disabilities.
- » Develop or expand the capacity to collect and use data to improve teaching and learning.

**EETT** provides grants to improve student academic achievement through the use of technology in schools and encourage the effective integration of technology with teacher training and curriculum development.

**RM EasiPodcast Lite Lab** will help teachers and students:

- » Improve student academic achievement through the use of technology in schools.
- » Assist all students in becoming technologically literate.
- » Encourage the effective integration of technology with teacher training and curriculum development in order to identify successful research-based instructional methods.

**SFSF** - Stabilize State and local government budgets to avoid reductions in education and other essential public services while driving education reform in four key areas: teacher effectiveness and inequities in the distribution of highly qualified teachers; rigorous college- and career-ready standards and assessments; targeted, intensive support and effective interventions to turn around struggling schools; and pre-K-through-college-and-career data systems.

**RM EasiPodcast Lite Lab** will help teachers and students:

- » To reach the goal of increasing America's talent pool by improving K-12 science and mathematics education.
- » Strengthen the skills of teachers through additional products, materials and content in science, math and technology.
- » Improve student achievement through school improvement and reform.
- » Strengthen and expand early learning.
