

RM Honeycomb is a creative, safe, web 2.0 workspace designed specifically for education. It's easy to use and suitable for students of all ages. RM Honeycomb's integrated set of online tools enable students to create blogs, wikis, and web pages that can be shared with classmates, parents, or other Honeycomb users; all at a teacher's discretion. For more information, please see RM Education 2009 catalog pages 20-21.

RM Product Solutions

EETT provides grants to improve student academic achievement through the use of technology in schools and encourage the effective integration of technology with teacher training and curriculum development.

RM Honeycomb will help teachers and students:

- » Improve student academic achievement through the use of technology in schools.
- » Assist all students in becoming technologically literate.
- » Encourage the effective integration of technology with teacher training and curriculum development in order to identify successful research-based instructional methods.
- » Provide and learn 21st century skills through the use of Web 2.0.

SFSF - Stabilize State and local government budgets to avoid reductions in education and other essential public services while driving education reform in four key areas: teacher effectiveness and inequities in the distribution of highly qualified teachers; rigorous college- and career-ready standards and assessments; targeted, intensive support and effective interventions to turn around struggling schools; and pre-K-through-college-and-career data systems.

RM Honeycomb will help teachers and students:

- » To reach the goal of increasing America's talent pool by improving K-12 science, technology, engineering and mathematics education.
- » Strengthen the skills of teachers through additional products, materials and content in science, math and technology.
- » Improve student achievement through school improvement and reform.
- » Strengthen and expand early learning.
